Today, for the first time in their history, the Washington High School Cadets participated in an inauguration day parade. Today, too, for the first time, these boys, of whom the District is so proud, paraded as a regiment, and their splendid appearance is fully and justly praised

when it is said that they appeared as veterans.

It was a proud day for the boys, and it was a proud day, too, for the fathers and mothers who were fortunate enough to behold their sons as they marched to and from the Capitol today.

This military organization was formed in 1882 by Principal Paul, now deceased. Two

companies were organized that year, and after much difficulty a sufficient number of old German muskets were secured to arm one company, and during drill one company used

the guns while the other went through the foot movements, and vice versa. The following year two fully uniformed companies were formed and armed with 100 Springfield cades

companies. During the present school yest two additional companies were formed, and the organization is now a regiment of eight companies distributed as follows: First buttalion, companies A. B. C and D, of the Central High School; second battalion, company E, from the Business School; companies F and G, from the Eastern School, and company H, from the Western (Georgetown) School.

The military instructor of the cadets since 1884 has been Major Burton R. Ross, first battalion, Washington Light Infantry Corps. District of Columbia National Guard. Under Major Ross instruction the boys have attained a proficiency in military tactics as has been demonstrated in their prize drills. The High School Cadets were the first organization to make practical use of the new drill regulations.

Second Lieut, L. Bogan. Colored High School Cadets. Today was a momentous one in the histor, of the Colored High School boys, for in today's inaugural parade their military company ap-

peared for the first time in public as a uniformed and full equipped organization, and despite the fact that the boys have had the advantage of being drilled by a competent military instructor only since November last, they made an excellent appearance and clearly indicated that they will, with time and experience, obtain a high rank in military bearing and proficiency.

indicated that they will, with time and experience, obtain a high rank in military bearing and proficiency.

The company was organized in the fall of 1891, but unfortunately the beys did not obtain their uniforms or arms until the beginning of the present school year. In November last the services of Capt. Arthur Brooks, company A, Washington Cadet Corps, first battalion, District of Columbia National Guard, as a drill master for the company were secured, and under his careful instruction the company has made rapid progress, although it has been found impossible to drill the boys more than twice a week on an average. It will therefore be seen that the cadets appeared at considerable disadvantage today and are entitled to all the more credit because of that fact. The company, which paraded about fifty-five strong, is officered as follows: Captain, Louis A. Cornish; first licutenant, James E. Walker, second licutenant, Marcellus M. Syphar; first sergeant, Charles M. Thomas; second sergeant, Alonzo S. Mitchell; third sergeant, John T. George; fourth sergeant, Charles A. Tignor; fifth sergeant, J. Edmund Hall; corporals, Frank Marshall, James T. Dowling, George L. Bowser, Samuel A. Milton, Arthur W. Lynch and Sylvester Thomas.
